

REMARKS

Claims 1-37 were filed in the original application. Claims 1-28 are herein provisionally elected.

The requirement for restriction in the present application is respectfully traversed and withdrawal of the restriction requirement is respectfully requested. Applicants respectfully point out that the separate utility (e.g. "interrupt processing" and "steering in a USB shared configurable resource") alleged by the Examiner for claims 29-37 are also functions that can be performed by the invention of the claims 1-28.

Please contact me if there are any issues regarding this communication or the current application.

Respectfully submitted,
